## Corset measuring guide

◄—————►  
Circumference measurement

┌—————┐  
Start to end point measurement

	Body Measurements	CM	Inches
A	Bust: Measure around the fullest point of your bust		
B	Underbust: Measure around your body right under your breasts (where the bra band sits).		
C	Waist: Measure around your waist at the narrowest point		
D	Front Waist Length: Measure from the top of your shoulder, over the bust to your waist.		
E	Front Bust Length: Measure from the top of your shoulder to your nipple		
F	Shoulder Width: Measure from your left shoulder bone to your right shoulder bone (across your back)		
G	Back Width: Measure from your left underarm to your right underarm (across your back)		

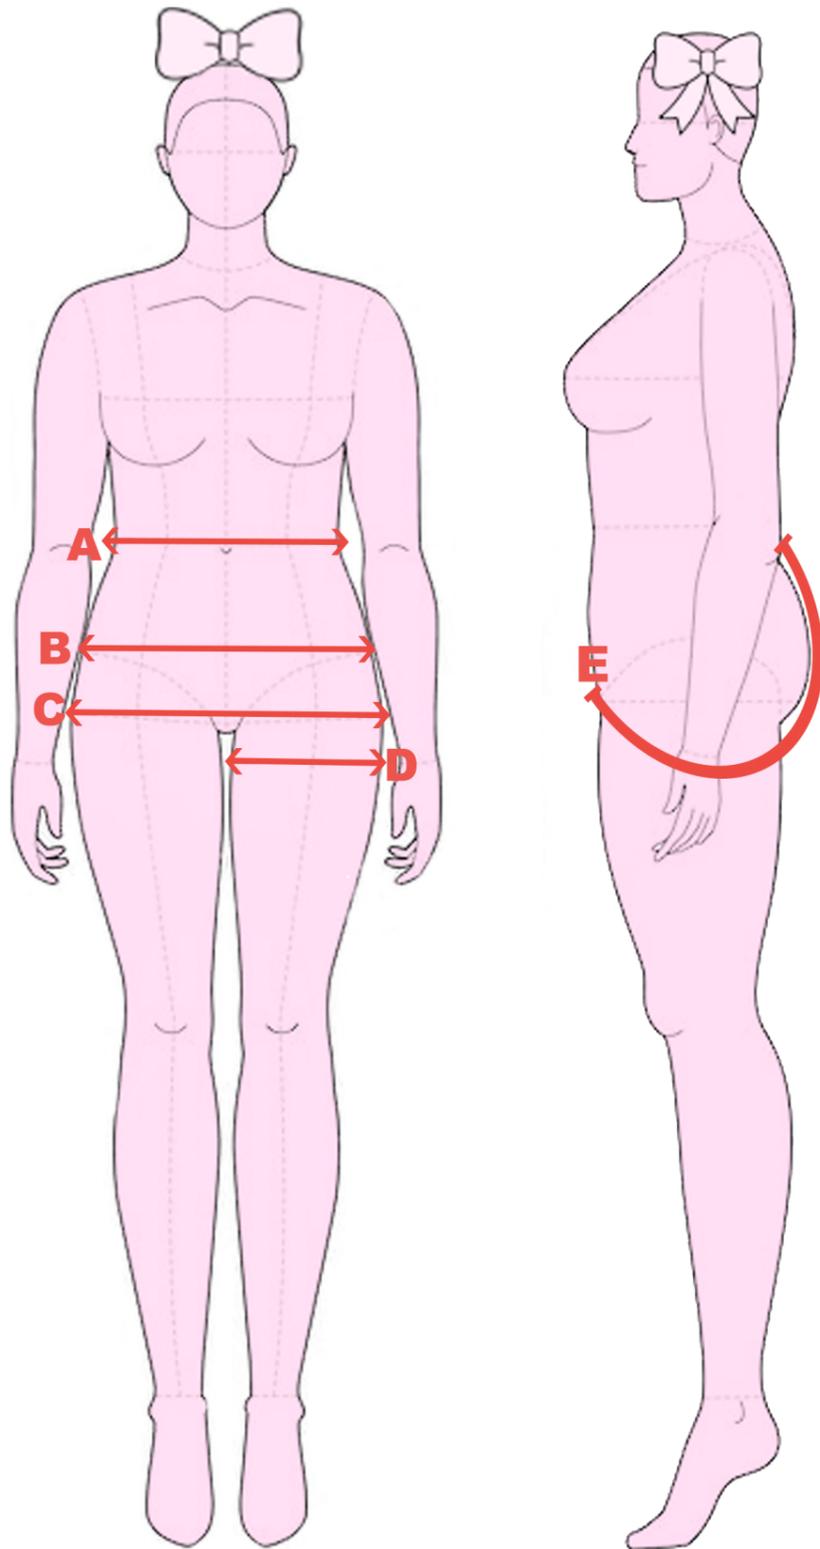

For the most accurate measurements, take them over your most comfortable bra and panties.

The tape measure has to sit firmly over the points you are measuring. Do not pull it too tight, and keep it parallel to the floor when measuring bust, underbust, waist, shoulderwidth and back width. It may be helpful to take your personal measurements in front of a mirror or with a friend.

Choose cm or inches, we do not need both <3

Start to end point measurement

	Body Measurements	CM	Inches
A	Waist: Measure around your waist at the narrowest point		
B	Belly: measure around the fattest point of your belly (around 5 inches below your waist)		
C	Hip: Stand with heels together and measure around the fullest point of your hip (around 8 inches below your waist)		
D	Thigh: Measure around the fullest point of your thigh		
E	Crotch depth: Measure from the top of your pussy, between your legs to the top of your bumcrack		

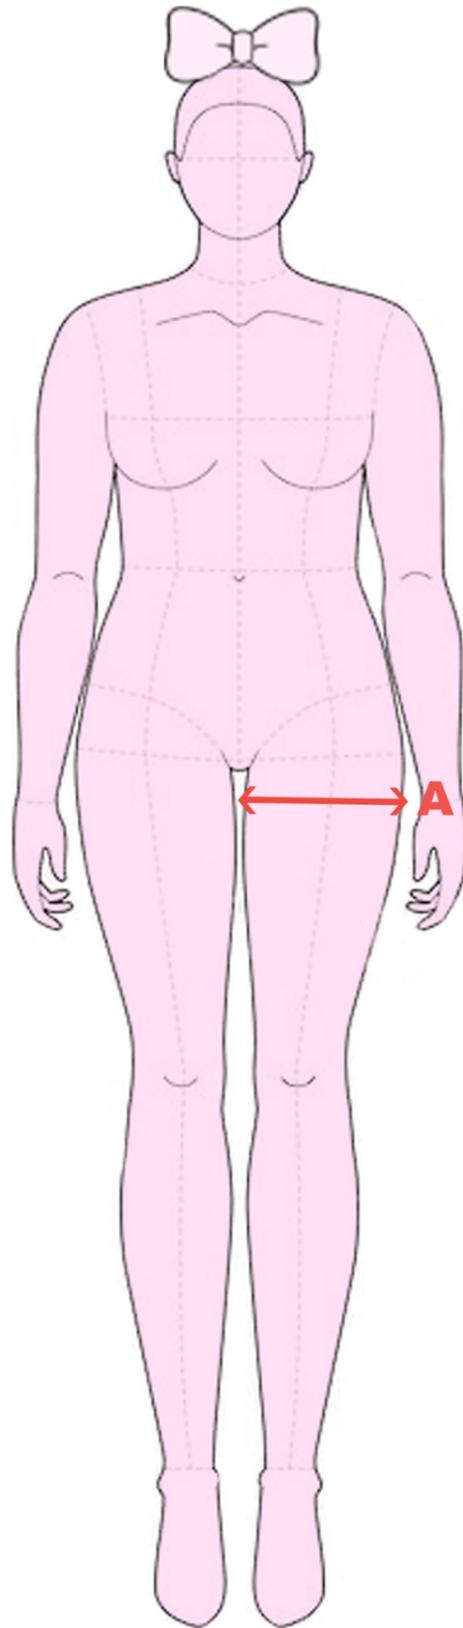

For the most accurate measurements, take them over your most comfortable bra and panties.

The tape measure has to sit firmly over the points you are measuring. Do not pull it too tight, and keep it parallel to the floor when measuring bust, underbust, waist, shoulderwidth and back width. It may be helpful to take your personal measurements in front of a mirror or with a friend.
